

# PHOTO CLINIC

with

**Henry Jager**

**18 - 21 June 2015**

**Acqua Dive Resort**

**Zamboanguita, Negros Oriental, PH**

**Would you like to shoot quality underwater shots for your holiday album? Impress your friends at home? Succeed with a fantastic presentation at your dive club? Gather many likes on Facebook? Or shoot professional quality images for entry in underwater photo competitions?**

**This photo clinic will teach you what you need to know.**

supported by:

## THE PHOTO CLINIC

The clinic is open to beginners through advanced photographers, shooting either DSLR or compact with strobes.

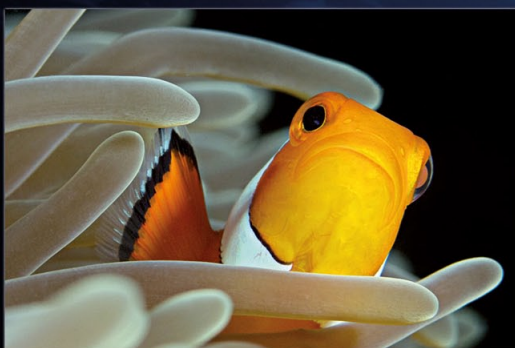

Are you learning the ropes with your compact set up or are you aiming for contest winning pictures? The Clinic offers individualised support for beginners and advanced photographers.

### Theory

Discussing our pictures will be the main source for theory work. Nevertheless, the first three evenings contain a small block of theory where we learn about

composition, point of view, different light situation, strobes positioning and technical aspects.

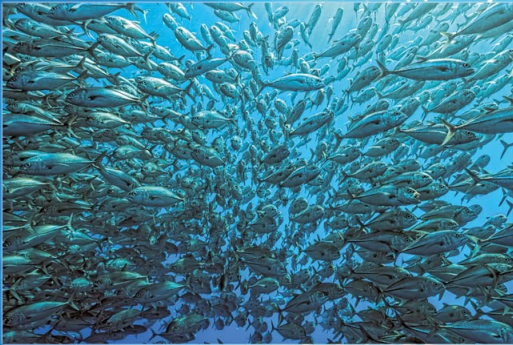

### Clinic

In the evening we will enjoy the beautiful garden and ocean setting of Acqua Dive, reviewing and talking about the «Picture of the Day». Day by day, we will track our improvements and learn more about our passion: underwater photography!

## CHALLENGES

### Diving and taking pictures

Around Zamboangita, we find beautiful dive spots offering macro and wide angle opportunities. We have 10 scheduled dives to practice and implement the theory we learned. At Acqua Dive's world class muck dive house reef, we will challenge our skills with tasks like «Creative light», «Upwards angle», «Super macro» and «Monochrome».

Apo Island is a world famous dive location and we are located at the closest mainland point! We take this idealic location to Apo Island as an opportunity to practice wide angle photography. Apo Island is a perfect place to be challenged with tasks like «Here comes the sun», «Close focus wide angle», «Ambient light» and «Groups».

Depending on the average skill of the class and the weather situation, topics are subject to change. It is a relaxed Clinic. Participants are welcome to input and discuss subjects they would like to focus on.

## ACQUA DIVE

### The Resort

Acqua Dive is a boutique resort located nearby Dumaguete in Zamboanguita, Negros Oriental and is located perfectly for diving at Apo Island, one of the Philippines' oldest and most highly rated marine sanctuary's and dive locations. The resort is fortunate to have several world class muck dives as house reefs, with flamboyant cuttlefish, mimic octopus, many varieties of frogfish and ghost pipefish and more.

### Photographers Paradise

Our resort is designed for photographers, a dedicated washing pool and divers lounge with comfortable areas for camera maintenance, charging and reviewing those captured moments.

### Rooms

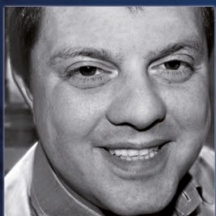

Acqua Dive is offering large private rooms with en suites and balconies. With only six rooms in the resort, the experience will be very personal!

### Restaurant

Casa Stone is a cozy restaurant and lounge bar located by the pool and garden, offers home cooked and quality menu options.

## HENRY JAGER

**Henry Jager** is a passionate underwater and wildlife photographer with an incredible sense for an unexpected view on the subjects.

Recently, in 2013, he added experimental photography (high speed, liquid art, drops, underwater painting and more) to his portfolio.

His photographs are appreciated around the globe. Besides two gold medals at the Trierenberger Supercircuit, the world's biggest fotosalon and the underwater photography contest at UWP, Henry's pictures have been awarded by National Geographic, Ocean Geographic, The Open, and many more. Based on his outstanding portfolio, Henry Jager has been awarded the "Grand Master" title at UWP.

Henry publishes in travel magazines as well as on scuba diving related webpages and blogs. He writes about travel destinations, photo courses and special photo techniques.
